

Introducing the new Sabre door handle - part of the suited range of hardware, from IFI Limited. The Sabre door handle is designed with compatibility and style in mind that will suit any door. The ergonomic design provides ultimate comfort with every operation. The Sabre door

handle also provides maximum strength and security with its reinforced back-plate. Included are sag resistant cassettes tested to exceed 30000 cycles for complete

durability. The Sabre door handles are finished in epoxy-polyester hybrid powder coat for maximum combined surface hardness and UV stability.

Available in lever/lever inline and lever/lever offset variants, with colour options of black, white (RAL9016), gold PVD, chrome PVD. □
